Summary

Front-End Developer with extensive experience building responsive, user-friendly web applications. Proficient in HTML, CSS, JavaScript, and modern frameworks such as Angular. Focused on optimizing performance, and enhancing user experience. Strong problem-solving skills and ability to work effectively within cross-functional teams.

Education

Bachelor of Arts – English Department Faculty of Arts, 2022

Experience

Route Academy (September 2024 – March 2025)

Trained at Route Academy for 6 months, gaining hands-on experience in frontend development using modern web technologies. During training:

- Skilled in HTML, CSS, JavaScript, and responsive design using Tailwind CSS, Bootstrap 5, AJAX, and ECMAScript .
- Worked on real-world projects that enhanced my skills in building dynamic and responsive web applications.
- Deepened my knowledge of Angular and worked on performance optimization, focusing on efficient data handling. Implemented lazy loading, which reduced file request sizes and improved web performance .

Projects

- **Ecommerce**: An eCommerce platform that is more than 13+ pages with Angular 19 and Tailwind CSS, featuring product listings, shopping cart functionality, and order management. live
- **SocialApp**: A social media application platform, built with Angular 16+ and Tailwind CSS, allowing users to post, comment, and interact with each other.
- **WeatherApp**: A weather forecast application built using javascript that retrieves and displays live weather data from a public API, offering users current weather information for their location. live

---

Technical Skills

- Front-End: HTML5, CSS3, JavaScript (ES6+), Bootstrap, Tailwind CSS
- Frameworks & Tools: Angular 16+, RxJS, Angular Material, NPM, Git&Github, OOP ,Postman
- API Integration: REST APIs, JSON, AJAX, Fetch API
- Others: Responsive Design, Cross-Browser Compatibility, Performance Optimization

---

Soft Skills

- Strong problem-solving and debugging abilities
- High attention to detail to ensure code quality
- Effective teamwork and collaboration within development teams
- Time management skills to meet tight deadlines
